A | A C

Clear Aligner Training Program is a program designed to provide orthodontists and dentists interested in orthodontics with the knowledge and skills necessary to excel in the field of orthodontics with clear aligners, offering both theoretical knowledge and practical experience.

The program has a minimum duration of 6 months, which includes 6 face-to-face modules divided into three weekends, and follow-up online classes. Optionally, attendees can extend their training with a two-day in-office module, and a practical NRO theory module.

MODULAR PROGRAM

THEORETICAL AND
HANDS-ON PROGRAM

NRO AND HANDS-ON

IN-OFFICE
COURSE**Module I, II & III**

Choose your
training path.
All modules or
individual modules.

Module IV

Theoretical and
practical extension
on neuro-occlusal
rehabilitation.

- OPTIONAL
